**Wirral Joint Strategic Needs Assessment Bulletin****January 2015****[Not displaying properly? Access this bulletin online](#)**

«GreetingLine»

Welcome to our first JSNA Bulletin for 2015 ...

Just letting you know about our progress, our plans and some new website developments for this new year.

Firstly the JSNA website will be getting a bit of makeover in the coming weeks..... in essence making access even more straight forward for you to reach more information more quickly.... An entry page with a simple A to Z, also by area, by topic and by our Instant Atlas page to aid your site search....[Click here for a sneak preview](#)

Secondly, we will be updating the layout of the JSNA Bulletin – still looking to bring you local, regional and national information of interest and of use .... Any ideas are always welcome...

Thirdly, keep you informed of our progress towards updating JSNA content ... some sections are in need to refresh and update and we have been working with colleagues to develop a co-author approach to do this ... one we will continue to pursue wherever possible.

As always let me know if you have anything to add to our JSNA, to share with other bulletin readers or general curiosity about Wirral JSNA ...Have a fantastic 2015....

Kind regards,

John

## Local Updates

### [Latest Update: Wirral Economic profile \(November 2014\)](#)

This update, produced by colleagues in the Council's Economic Development Team, provides important insight into Access the latest report [here](#)

### [New content: Wirral Violence Profile \(December 2014\)](#)

Produced by Centre for Public Health at Liverpool John Moores University. Access report [here](#)

### [JSNA Bulletins](#)

Previous JSNA Bulletins are available [here](#)

## New Pages

These new pages have been added recently. They continue to be in development, some with more information than others and some still waiting to be populated, but in general they do contain a range of content that I am sure you will find useful. I hope to be able to add to them over the next 12 months:

- [Local Disease Profiles](#)
- [Cardiovascular Disease](#)
- [Heart Disease](#)
- [Kidney Disease](#)
- [National Outcome Frameworks](#)
- [Asthma](#)
- [Cancer](#)
- [Child Sexual Exploitation \(CSE\)](#)
- [COPD \(Chronic Obstructive Pulmonary Disease\)](#)
- [Crime, disorder and community safety](#)
- [Dementia](#)
- [Dental](#)
- [Employment & Unemployment](#)
- [End of Life](#)
- [Epilepsy](#)
- [Heart Disease](#)
- [JSNA: Children & Young People \(ChiMat Navigator\)](#)
- [Life Expectancy](#)
- [Physical Activity](#)
- [Public Health Briefings](#)
- [Stroke](#)
- [Sport](#)
- [Social Isolation & Loneliness](#)
- [Transport](#)
- [Tobacco.....](#) and [more](#)

## Other reports and updates

### [Social Value Strategy for Liverpool CCG \(May 2014\)](#)

This strategy defines Liverpool CCGs first approach to embedding social value and is intended to guide and communicate their commitment to local NHS staff, patients and public, providers, partners and other stakeholders. Creating Social Value means increasing the social, economic and environmental wellbeing of the people we serve. Access document [here](#)

### **Stop the rot: new campaign highlights how cigarettes 'rot' the body from the inside**

Public Health England (PHE) has launched a powerful new campaign to highlight how smoking damages the body and causes a slow and steady decline in a process similar to rotting.

The campaign starts as a new expert review commissioned by Public Health England highlights the multiple impacts that toxic ingredients in cigarettes can have on your body. While many smokers know that smoking causes cancer and harms the lungs and heart, the new report highlights how it also damages:

More campaign details [here](#) and local Stop Smoking Service information can be accessed [here](#)

### **Health survey for England - 2013**

The results from the Health Survey in England series provides regular information that cannot be obtained from other sources on a range of aspects concerning the public's health and many of the factors that affect health. The 2013 report includes chapters on children's smoking and smoke exposure; children's BMI, overweight and obesity; and fruit and vegetable consumption. Reports are available [here](#)

### **Offer weight loss surgery to obese people with diabetes**

According to recent NICE guidance the NHS should offer weight loss surgery to thousands more people in order to tackle an epidemic of type 2 diabetes. They also recommend that all patients with a BMI of 35 or over who have recent-onset type 2 diabetes should be assessed for surgery. Read NICE views [here](#)

### **National Child and Maternal Health Intelligence Network eBulletins**

ChiMat produce a number of eBulletins to keep people up to date with the latest news, events, policy reports, research and other resources relating to children's, young people's and maternal health.

- [Child and Maternal Health Knowledge Update](#)

### Local JSNA Updates

[New Sexual Health Needs Assessment \(associated content\) here](#)

[Updated JSNA Diabetes section here](#)

[Deliberate Self Harm across Merseyside and Cheshire April 2011 to March 2014](#)

Self-inflicted violence, self-poisoning or deliberate self-harm (DSH), is an important public health problem in the UK and across the world. This local report by Centre for Public Health at Liverpool John Moores University looks to increase our understanding of self-harm as both a public health issue and an individual concern for those involved. Access report [here](#).

### Back the bid for solar panels on Pensby Library

Fledgling Wirral community energy group 'Wirral Community Renewables' needs your support for its bid to install solar panels on Pensby library. The project is the only Wirral project shortlisted in the M&S community energy fund competition. To win the funds the project needs to top its category in the on-line public vote which runs to the end of September. You can back the 'Solar Enlightenment' bid by voting at: [www.mandsenergyfund.com/project/28393](http://www.mandsenergyfund.com/project/28393). The bid is to install 4KWp solar panels on Pensby Library. It has been developed in partnership with Wirral Council and local charity Energy Projects Plus. If you'd like to get involved in the new Wirral Community Renewables group please email: [advisor@epplus.org](mailto:advisor@epplus.org)

[Ageing: the silver lining: the opportunities and challenges of an ageing society for local government](#)

This report sets out the increasing contribution older people can make to society and the economy through empowered local government. The Local Government Association report also challenges the commonly held belief that an ageing population is a burden. Access report [here](#)

### [Climate Just Map Tool](#)

The Climate Just Map Tool shows the geography of England's vulnerability to climate change at a neighbourhood scale. Its purpose is to support local planning and responses to a changing climate. Access tool [here](#)

### [How can and should UK society adjust to dementia?](#) (July 2015)

This Joseph Rowntree Foundation paper explores the application of the 'social model' of disability to dementia. It aims to stimulate debate about new ways forward in understanding, and ways to meet the needs of the growing number of people living with dementia. Access report [here](#)

### [Carbohydrates and health](#) (Scientific Advisory Committee on Nutrition, July 2015)

This report provides clarification of the relationship between dietary carbohydrates and health. It reviews evidence for the role of dietary carbohydrate in colorectal health, cardiometabolic health and oral health. The report also makes public health recommendations. Access report [here](#)

### [Introductory guide to the evaluation of weight management, physical activity and dietary interventions](#)

This guide provides an introduction to the evaluation of public health programmes and interventions. It is primarily written for practitioners interested in the evaluation of weight management, physical activity and dietary programmes. However it contains many general principles that may be applied to other public health areas. It will be a useful first step for anyone new to the topic of evaluation or those wishing to refresh their knowledge of evaluation approaches. Access tools [here](#)

### [Beyond fighting fires: the role of the fire and rescue service in improving the public's health](#)

This Local Government Association resource describes how the fire and rescue service is working to improve health and wellbeing. It outlines case studies that show a range of ways in which the fire and rescue service puts prevention and tackling health inequalities at its heart and includes programmes covering both urban and rural environments. ## Other related information: Children & Young People

### [The Children's Society: Children in England among the unhappiest in the world with school](#)

Children in England are unhappier with their school life than those in almost every country featured in a major new international survey by The Children's Society, with more than half a million 10 and 12-year-olds having been physically bullied each month, causing huge damage to their happiness, and with many more feeling left out.

### [Poor beginnings: health inequalities among young children across England](#)

This report is based on official data published by Public Health England. It looks at four key measures of young children's health and well-being - obesity, tooth decay, accidental injury and 'school readiness'. The report provides a clear picture of the health of children under five years old living in England and shows how growing up in different areas of the country has a dramatic effect on their lives.

### [Young children's and families' experiences of services aimed at reducing the impact of low-income: participation work with children and families](#)

This report presents the findings of a qualitative research and participation project that explores the views and experiences of children under five years, and their parents, of services important for reducing the impact of low-income. The study was conducted by the National Children's Bureau and commissioned by the Office of the Children's Commissioner.

[Changing the odds in the early years: a discussion paper on tackling poverty in the early years](#) This report from the Children's Commissioner presents research into local services that prevent poverty during the early years Access [here](#)

### [Young People's Health Partnership Briefing: Substance Misuse](#) (July 2015)

Addaction (with other members of the Young People's Health Partnership, a consortium of organisations working with the Department of Health, Public Health England and NHS England) has produced [this briefing](#) about young people's substance misuse and how local services and commissioners can respond to this issue.

### [SEN and disability in the early years toolkit](#)

4Children and the Council for Disabled Children (CDC) have produced a toolkit for SEN and disability in the early years. Each section of the toolkit provides a briefing on a particular aspect of the SEN and disability reforms as they apply to early years providers. Access toolkit [here](#)

### [The determinants of health inequities experienced by children with learning disabilities](#)

This report summarises current scientific knowledge about the determinants of health inequities experienced by children with learning disabilities in the UK. Recommendations targeted at national and local government are included in the report and focus on three key actions: reducing child poverty; reducing exposure to specific hazards; and building resilience. Access report [here](#)

### [Obesity: prevention and lifestyle weight management in children and young people](#)

This NICE quality standard covers a range of approaches at a population level to prevent children and young people aged under 18 years from becoming overweight or obese, including interventions for lifestyle weight management. Report [here](#)

### [Smoking, drinking and drug use among young people in England - 2014](#)

This report contains results from an annual survey of secondary school pupils in England in years 7 to 11 on smoking, drinking and drug use. New areas included in the survey for the first time were e-cigarettes, waterpipe tobacco, legal highs and energy drinks. Report [here](#)

### [Associations between food outlets around schools and BMI among primary students in England: a cross-classified multi-level analysis](#)

This study examines associations between food retailing and BMI among a large sample of primary school students in Berkshire, England. There was little evidence to suggest that food retailing around schools influences student BMI. There is some evidence to suggest that fast food outlet densities in a child's home neighbourhood may have an effect on BMI, particularly among girls, but more research is needed to inform effective policies targeting the effects of the retail environment on child obesity. Report [here](#)

## Wirral Joint Strategic Needs Assessment Bulletin

November 2015

[Not displaying properly? Access this bulletin online](#)

Dear Hannah ,

Hope this November edition of the JSNA Bulletin finds you well...

New for this edition are the new and refreshed [Housing evidence](#) [Crime and Disorder Summary Ward and Constituency reports](#) using Place Analytics and a host of local information on the 2015 Indices of Multiple Deprivation .... plus the usual mix of other local content with wider news of interest ...

With the next bulletin being January there will be in that edition a range of evidence for you to view that is being used to inform the Wirral Plan 2020, both strategy and plan processes.

Remember if you have anything new or past that others I'm sure will find interesting and inform their work then please let me share with the 1,500+ bulletin readers....

Kind regards as always

John

JSNA Programme Lead

**Wirral Carers E-News Bulletin** ... latest local news and information from WIRED [here](#)

**Measuring mental wellbeing in children and young people** [here](#)

This document outlines the importance of measuring mental wellbeing in children and young people. It is intended to provide guidance on the use of targeted, evidence driven intelligence and practical support to those wishing to develop local joint strategic needs assessments (JSNAs) and the evaluation of interventions which improve the mental wellbeing of children and young people

**Other information you might find useful** [here](#)

**What explains the growth in 'never-worked' households? (Joseph Rowntree Foundation) [here](#)**

The number of homes where no one has ever worked has doubled in little more than a decade. But is this a sign of growing 'welfare dependency' or the result of other factors? This report looks at the characteristics of 'never-worked' households and considers the possible reasons for the increase. It finds that most never-worked household are lone parent households and younger single people; there is little or no evidence of a problem of 'intergenerational worklessness'.

## **Wirral JSNA: Range of information related to Children & Young People**

### [Youth Select Committee publish young people's mental health report](#)

The report, launched as part of Parliament Week, concludes that mental health services for young people are critically underfunded and that much work is needed to break down the stigma associated with mental health problems.

### [New children's Body Mass Index \(BMI\) trends report](#)

PHE has published the latest National Child Measurement Programme (NCMP) trends report, which shows changes in the BMI of children in state maintained primary schools in England between 2006/07 and 2013/14. The report shows that obesity is stabilising in Reception (age 4-5 years) girls and there is a downward trend in obesity in Reception boys. In Year 6, however, there is a significant upward trend in obesity among both boys and girls with the highest average increase per year in girls of this age. In both Reception and Year 6, inequalities in obesity are widening between the most deprived and least deprived children.

### [A new home for public health services for children aged 0-5: a resource for local authorities](#)

This briefing for officers will help councils deliver their new statutory responsibility for commissioning children's public health services for children aged 0-5. It has information about the transfer and the opportunities to join up public health functions for children aged 0-19.

### [Children looked after in England \(including adoption and care leavers\) year ending 31 March 2015](#)

This statistical first release provides information about looked-after children at both national and local authority levels for the financial year 2014 to 2015

### [Guidance: What works in schools to increase physical activity: briefing](#)

A briefing for head teachers, college principals, staff working in education settings, directors of public health and wider partners.

### [Health behaviour in school-aged children England national report 2014](#)

This report presents the findings for England from the 2014 Health Behaviour in School-aged Children (HBSC) World Health Organization (WHO) collaborative study. It provides an up to date view of adolescent health and well-being in England, and provides an overview of trends in these areas spanning more than a decade (2002-2014).

### [Proportion of children in out-of-work benefit households measure for 2014](#)

Statistics on the number and proportion of children living in out-of-work benefit households for each local authority in England.

[Supporting children, young people and families and communities to be safer, healthier and to reduce youth crime](#) This pathway provides guidance to school nurses and youth justice professionals working with young people who are in the youth justice system or at risk of being involved. It sets out the rationale for effective partnership working and pulls together the core principles to help local areas develop their own local frameworks to support effective working.

### [Measuring mental wellbeing in children and young people](#)

This guide to measuring the mental wellbeing of younger populations aims to support local joint strategic needs assessments (JSNAs) and the commissioning of interventions to improve the mental wellbeing of local children and young people. The technical appendix has measures to quantify mental wellbeing and its determinants, information on using the measures and links to examples of evidence based practice.

### [Helping school nurses to tackle child sexual exploitation](#)

This pathway is designed to clarify the role of the school nursing service regarding child sexual exploitation.

[The contribution of further education and skills to social mobility - BIS research paper 254](#) This review of published research from government, academics and think tanks investigates how taking part in further education helps people get better jobs and wages. It also looks at the effects further education has on the prospects for the children of learners.

[Commons Select Committee calls for urgent changes to support disadvantaged pupils in the published Pupil Premium PAC report](#)

**Children & Young People Now: One in three young people in custody are in care system**

More than a third of under-18s in young offender institutions (YOI) are in the care system, it has emerged <http://www.cypnow.co.uk/cyp/news/1154113/one-in-three-young-people-in-custody-are-in-care-system>
